### About me:

I am a highly competent IT professional with a proven track record in designing websites, networking and managing databases. I have strong technical skills as well as excellent interpersonal skills, enabling me to interact with a wide range of clients. I am eager to be challenged in order to grow and further improve my IT skills. My greatest passion in life is using my technical know-how to benefit other people and organisations. I also like to explore new directions, and I have experience in business development and management, I was the manager of a coworking center for about half a year and developed a business strategy for its development, which is still working. I am always ready to learn something new and develop. It is very important for me to develop and work in a team, since it is the team spirit that contributes to the success of the project, and it is important to be able to put the success of the team above your own.

## WORK EXPERIENCE

15/07/2020 – 31/12/2022 Baku, Azerbaijan

### **BUSSINESS DEVELOPMENT MANAGER** COLAB.

---

This company is a subsidiary of Workplace. COLAB is a premium level coworking center. My task was the development and optimization of business strategies, the introduction of new technologies, as well as marketing. It so happened that I became a manager during the pandemic and my task was to increase sales and bring the coworking center from a loss-making state to a profitable one, solve problems and prevent its closure. I managed to complete the task. It was a useful and interesting experience.
